Review of Sherlock Home Inspections

Original Review:

Top Notch! Beyond thorough! They don't miss a nick! Their business works as a team, leaving little room for error. Two inspectors came out as well as a pet inspector. They were very considerate of both sides of the transaction. They consider themselves "guests" in your home and treat everyone equally. The report was honest and fair. They truly care for everyone to be happy and safe. Can't say enough great things about them!!!!
